DEFIANT

Defiant cassetted blinds and blackout units

All Defiant blinds are carefully built to exacting standards, giving years of trouble-free service and are covered by a 5 year guarantee. The superior design features and quality components enable them to be confidently specified for the most demanding environments. Many Defiant blinds feature vandal-resistant controls and mechanisms, and are frequently to be seen in hospitals, schools, colleges and other public buildings, as well as the regular commercial and residential applications.

The Defiant fabrics programme encompasses a vast range of fabrics, many of which are flame-retardant to government standards. Fabric types include dim-out, black-out, solar reflective, sun-screen and solar film.

Defiant blinds are available through a nationwide network of customer / distributors, with experienced installation and service teams providing an unrivalled level of support.

Defiant cassetted blinds give a smooth contemporary style to any window, and help to protect the blind fabric from dust or damage. The C2 cassettes are simply a pleasing and modern alternative to standard roller blinds, whilst the C4 includes attractive aluminium side channels to complement the cassette. These help to retain the fabric in position, and will also give a degree of light exclusion when used in conjunction with blackout fabric. Defiant cassetted blinds are available in four cassette sizes, with a choice of sidewinder, slow-rise spring, geared crank or motorised control.

Defiant blackout units (the C7 range) are high performance blinds with a very high degree of light exclusion. Suitable for photographic and medical environments, and widely used in conference rooms, laser rooms, lecture theatres and laboratories, their headboxes and side channels have brush seals and light-transfer baffles to ensure the greatest possible level of light exclusion. They are available with, spring, geared crank or motorised control.

Selector Chart for all Cassetted Blinds and Blackout Units

Control type	Cassette size									
	Cassetted				Cassetted with side channels				Blackout unit	
	45mm	65mm	85mm	115mm	45mm	65mm	85mm	115mm	100mm	Overhead 100mm
Sidewinder	C20-45	C20-65	C20-85	C20-115	C40-45	C40-65	C40-85	C40-115	-	-
Spring	C22-45	C22-65	C22-85	-	C42-45	C42-65	C42-85	-	C72	C72

Electric 240v AC	-	-	C55-85	C55-115	-	-	C65-85	C65-115	C75	C77

Maintenance

All Defiant cassetted and blackout blinds are designed to require low maintenance. The components and mechanisms are made from durable materials and will not corrode in normal use. In the event of damage most components are easily replaceable. Fabrics are designed to have high levels of stability and colour fastness.
